RE: Food Contact Substance Notification (FCN) 001806
Final Letter (Revised)
Replaces FCN 1419

Dear Mr. Harvey:

This letter is in reference to the notification for the food contact substance and use described as follows:

Food Contact Substance (FCS)

An aqueous mixture of peroxyacetic acid (PAA) (CAS Reg. No. 79-21-0), hydrogen peroxide (HP) (CAS Reg. No. 7722-84-1), acetic acid (AA) (CAS Reg. No. 64-19-7), 1-hydroxyethylidene-1,1-diphosphonic acid (HEDP) (CAS Reg. No. 2809-21-4), and optionally sulfuric acid (SA) (CAS Reg. No. 7664-93-9).

Notifier

Enviro Tech Chemical Services, Inc.

Manufacturer/Supplier

Enviro Tech Chemical Services, Inc.

Intended Use

As an antimicrobial agent in process water and ice used in poultry processing.

Limitations/Specifications

The components of the FCS mixture will not exceed 2000 ppm PAA, 770 ppm HP, and 100 ppm HEDP in process water applied as a spray, wash, rinse, dip, chiller water, low temperature (e.g., less than 40 °F) immersion baths, or scald water for whole or cut poultry carcasses, parts, trim, and organs.

This is to inform you that as of October 4, 2017, FCN 1806 became effective. It will be added to the list of effective notifications for FCNs which is available on our website:

<http://www.fda.gov/Food/IngredientsPackagingLabeling/PackagingFCS/Notifications/default.htm>.

The Agency has determined that allowing this notification to become effective will not have a significant impact on the quality of the human environment and therefore an environmental impact statement is not required. The Agency's finding of no significant impact and the evidence supporting that finding, contained in an environmental assessment, will be publicly available after the effective date of the notification.

U.S. Food and Drug Administration
Center for Food Safety & Applied Nutrition

College Park, MD 20740
www.fda.gov

This effective notification is applicable only to the subject FCS manufactured or prepared by Enviro Tech Chemical Services, Inc., and is limited to the use identified above. You should inform the Agency of any modification to the FCS, the limitations/specifications given in the notification, or of any alteration in the manufacturing process that would result in a change in the impurities or impurity level in the FCS. Such changes may require the submission of a new notification.

FDA's review of this notification was limited to Section 409 of the Federal Food, Drug, and Cosmetic Act (FD&C Act). The existence of an effective notification for a FCS does not relieve use of the subject substance from compliance with any other provision of the FD&C Act or with Title 21 of the Code of Federal Regulations (21 CFR) §174.5 - General provisions applicable to indirect food additives. For example, in accordance with section 402(a)(3) of the FD&C Act (21 U.S.C. 342), use of the FCS should not impart odor or taste to food rendering it unfit for human consumption.

Section 301(ll) of the FD&C Act prohibits the introduction or delivery for introduction into interstate commerce of any food that contains a drug approved under section 505 of the FD&C Act, a biological product licensed under section 351 of the Public Health Service Act or a drug or biological product for which substantial clinical investigations have been instituted and their existence has been made public, unless one of the exemptions in section 301(ll)(1)-(4) applies. In our review of this notification, FDA did not consider whether section 301(ll) or any of its exemptions apply to the intended use of the FCS. Accordingly, allowing this FCN to become effective should not be construed as a statement that the intended use of the FCS would not violate section 301(ll).

If new data or information becomes available to FDA demonstrating that the intended use of the FCS is no longer safe, the Agency will inform you of its determination that the intended use of the FCS is unsafe. In addition, if you become aware of data that raise questions about the safety of the intended use of the FCS, you should notify the Agency immediately and be prepared to supply the necessary data to resolve any questions.

If you have any further questions concerning this matter, please do not hesitate to contact us.

Sincerely,

**Sharon E.
